LOBOSWAY AT A GLANCE

Integrated **Engineering**,
Industrial & Technology Solutions

Lobosway Global Resources Limited is an indigenous Nigerian company providing integrated engineering, industrial and technology solutions to the energy, oil & gas, infrastructure and industrial sectors.

Established in 2008, Lobosway has evolved from a foundation in procurement and supply into a broader organization supporting engineering, fabrication, equipment, project execution and technology-enabled solutions. Our operations support clients across upstream, midstream and downstream environments.

ABOUT LOBOSWAY

An established **Nigerian industrial** company.

Lobosway Global Resources Limited was established in 2008 in response to the evolving needs of Nigeria's fast-growing oil & gas industry.

Our management and technical teams bring experience across multiple sectors, supported by established supplier, OEM and technology relationships. Over the years, Lobosway has developed from a procurement focused business into an integrated engineering, fabrication, procurement, equipment and technology solutions provider.

As a wholly indigenous Nigerian company, we are committed to building local capability while delivering reliable solutions aligned with client specifications, quality requirements, safety expectations and project schedules.

LOBOSWAY'S STORY

Built over more than a **decade**,
one capability at a time

— Established in response to a growing industry

2008 — Foundation

Lobosway Global Resources Limited was established in 2008, in response to emerging trends in Nigeria's fast-paced oil & gas industry. From the outset, the goal was to become an indigenous player capable of supporting the full lifecycle of industrial projects — not just a single service line.

— Built on procurement & supply

Early Years

Our early years were built on procurement and supply — sourcing OCTG, mechanical parts, valves and consumables for operators across the upstream, midstream and downstream sectors. This period established the supplier relationships and OEM partnerships that still support our operations today.

— Equipment leasing & project support

Growth

As client needs grew more complex, we expanded into equipment leasing and hands-on project support — supplying heavy equipment, vehicles and technical manpower to brownfield and greenfield sites across the country.

— Investing in fabrication & operations

Building Our Base

Recognizing the need for in-house industrial capability, we developed our own fabrication and operational base at Ekpan, Warri, Delta State — investing in workshop facilities and equipment that allow us to deliver fabrication work directly, rather than subcontracting it out.

— Integrated engineering & industrial services

Today

Lobosway now delivers integrated engineering, fabrication, procurement, equipment and technology solutions — supporting oil & gas, energy and industrial clients across onshore and offshore operations, backed by ISO 9001-certified quality systems.

Our Vision

To be a leading indigenous provider of integrated engineering, industrial and technology solutions across the energy, oil & gas and industrial sectors.

Our Mission

To deliver reliable, high-quality engineering, fabrication, procurement, equipment and technology solutions safely, efficiently and responsibly, creating lasting value for our clients, partners and stakeholders.

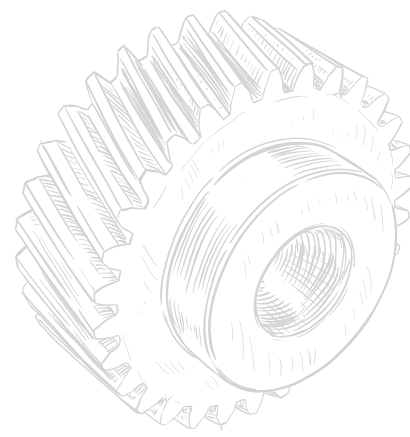

Our Values

- Integrity
- Safety & Quality
- Innovation
- Customer Focus
- Sustainability

WHAT WE DO

Five capabilities,
one accountable team

From steel to systems — everything a project needs to move from spec sheet to site, with technology supporting our core industrial work rather than defining it.

01 / ENGINEERING & EPC

Engineering & EPC Support

Engineering support, EPC support, construction, maintenance and project execution.

02 / FABRICATION

Fabrication & Industrial Services

Structural, mechanical and pipe spool fabrication, welding, machining and QA/QC — from our own operational base.

03 / SUPPLY

Procurement & Supply

Industrial procurement, OEM supply and project materials sourced through our global partner network.

04 / EQUIPMENT

Heavy Equipment, Fleet & Logistics

Mobile cranes, heavy lifting equipment, forklifts, trucks, generators, and project mobilization.

05 / TECHNOLOGY

Technology & Digital Solutions

IT infrastructure and RFID-based asset tracking supporting our core operations — delivered directly and through OEM partners.

SERVICE 01 · ENGINEERING & EPC

Engineering & EPC Support

Technical solutions to real project problems, delivered by **experienced professionals** with safety and quality built into every stage.

CORE CAPABILITIES

Full-Lifecycle Engineering Support

Engineering support for routine operations, maintenance, shutdown planning and project development.

EPC Support

Engineering, Procurement & Construction support across onshore and offshore projects.

Civil & Construction Works

Civil works and construction assemblies executed to specification and schedule.

Mechanical & Electrical Installation

Installation and maintenance of mechanical and electrical systems.

Pipeline Maintenance

Pipeline maintenance, inspection and associated integrity support.

Rehabilitation & Upgrade

Modification, rehabilitation and upgrade support for existing facilities.

Pipeline Maintenance

Pipeline maintenance, inspection and associated integrity support.

Oil & Gas — Upstream

Midstream

Downstream

Energy & Power

Industrial Facilities

SERVICE 02 · FABRICATION

Fabrication & Industrial Services

Fabrication, welding and industrial assembly under one roof. Lobosway's fabrication capability supports onshore and offshore industrial requirements, with a focus on piping, structural fabrication, welding, mechanical fabrication and related assemblies.

CORE CAPABILITIES

Structural Fabrication

Onshore and offshore structures, prefabricated assemblies and construction supports.

Pipe & Spool Fabrication

Pipe spool fabrication and associated piping assemblies.

Welding

Carbon steel, stainless steel and other materials within our qualified procedures and capabilities.

Mechanical Fabrication

Industrial assemblies, supports, skids and equipment-related fabrication.

Machining & Mechanical Components

Pipeline maintenance, inspection and associated integrity support.

Inspection & NDT

Inspection and NDT services delivered through qualified resources and specialist partners, where applicable.

SERVICE 03 · PROCUREMENT

Procurement & Supply

Industrial procurement solutions connecting clients with trusted manufacturers, OEMs and suppliers.

CORE CAPABILITIES

OCTG & Tubular Products

Oil Country Tubular Goods supplied to specification.

Mechanical Components

Valves, machined components, flanges and mechanical parts sourced through vetted suppliers.

Seals & Fasteners

Industrial seals, gaskets, bolts, nuts and related components.

Welding Equipment & Consumables

Welding equipment, accessories, consumables and supporting products.

Lifting Equipment & Accessories

Lifting equipment and rigging accessories for project and yard operations.

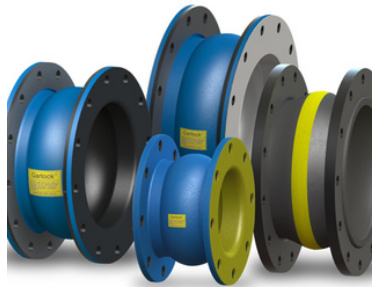

Electrical & Instrumentation Supplies

Electrical and instrumentation components sourced through our supplier network.

MATERIALS WE SUPPLY

HDPE fittings

Pup joints

Threaded casing pipes

SERVICE 04 · EQUIPMENT

Heavy Equipment, Fleet & Logistics

Lobosway provides integrated equipment, fleet and logistics solutions supporting oil & gas, energy, construction and industrial projects. Our capabilities include equipment leasing, vehicle leasing, lifting and material-handling support, transportation, site logistics and project mobilization.

Through our owned assets and established equipment partnerships, we provide flexible solutions tailored to project requirements.

SUPPORTING CAPABILITIES

Vehicle Leasing & Fleet

Fleet solutions supporting personnel movement, logistics and project operations.

Manpower & Site Support

Technical and operational manpower support where required.

Heavy Equipment

Equipment solutions supporting construction, fabrication, maintenance and site operations.

Lifting & Mobilization

Lifting equipment and project mobilization support.

Brownfield & Greenfield Support

Project support for existing facilities and new developments.

SERVICE 05 · TECHNOLOGY & DIGITAL SOLUTIONS

Technology & Digital Solutions

A supporting capability behind our engineering, EPC, fabrication and industrial services — keeping operations connected, secure and visible through established OEM and technology partners.

IT INFRASTRUCTURE & TECHNOLOGY

IT Infrastructure Design & Deployment

Planning, design and deployment from individual sites to multi-location environments.

Network Infrastructure

Structured cabling, wireless networks and connectivity solutions for demanding environments.

Servers, Storage & Data Centre Solutions

Infrastructure solutions coordinated through OEM and technology partners.

Cybersecurity

Security solutions delivered in coordination with specialist technology partners.

Hardware & Software Procurement

Technology procurement, licensing and OEM sourcing through established suppliers.

Systems Integration & Technical Support

Integration of technology systems with ongoing support.

RFID & ASSET MANAGEMENT

RFID-enabled identification, tracking, inventory visibility and industrial asset management – particularly relevant to oil & gas, engineering, construction, logistics and industrial asset management.

Oil & Gas

Energy & Utilities

Engineering & Construction

Manufacturing

Logistics & Industrial Operations

INDUSTRIES WE SERVE

OIL & GAS

Upstream, midstream & downstream

Engineering, fabrication, procurement, maintenance and project support across upstream, midstream and downstream operations.

ENERGY & POWER

Generation & utilities

Equipment, infrastructure, engineering and maintenance solutions supporting power generation and utilities.

INDUSTRIAL & MANUFACTURING

Process & manufacturing facilities

Fabrication, procurement, technology and equipment support for process and manufacturing facilities.

CONSTRUCTION & INFRASTRUCTURE

Major construction activities

Heavy equipment, logistics, engineering and project support for major construction activities.

INDUSTRIAL & MANUFACTURING

Process & manufacturing facilities

Fabrication, procurement, technology and equipment support for process and manufacturing facilities.

EKPAN, DELTA STATE, NIGERIA

Lobosway Fabrication & Operations Base

Our fabrication and operations base provides a dedicated platform for industrial fabrication, equipment operations, project mobilization, logistics and field support. The facility supports Lobosway's growing capability in pipe fabrication, structural fabrication, mechanical assembly, welding and project preparation.

QUALITY, HSE & COMPLIANCE

QUALITY MANAGEMENT

Planned, executed, inspected, documented

Lobosway maintains quality processes designed to ensure that work is planned, executed, inspected and documented in accordance with applicable requirements.

QA/QC

Built into project execution

Technical quality, inspection, reporting and non-conformance management are incorporated throughout project execution.

HEALTH, SAFETY & ENVIRONMENT

Integrated into every activity

Safety is integrated into planning, mobilization, fabrication, installation and field activities.

CONTINUOUS IMPROVEMENT

Lessons learned, applied

Lessons learned, audit findings and corrective actions are used to improve performance.

INDUSTRY EXPERIENCE & CLIENTS

Organizations we have executed contracts for

Our project experience spans leading international and indigenous operators across the Nigerian oil & gas and energy sectors.

Industries & clients we serve

Beyond completed contracts, our work and capabilities extend across a wider set of industries and organizations in the Nigerian energy sector.

OEM & STRATEGIC PARTNERSHIPS

Lobosway works with established partners to provide access to specialized equipment, technology, materials and technical solutions — distinct from the clients we deliver projects for.

Industrial & Equipment Partners

OEM & Technology Partners

Procurement & Supply Partners

HOW WE PARTNER

What working with Lobosway looks like

Our Value

We create, deliver and sustain premium value.

Partnership

We build mutually beneficial relationships, not one-off transactions.
